

# Meet-Me-Room

FiberNet manages and operates the 60 Hudson Street Meet-Me-Room. Known as the premier carrier hotel in the world, 60 Hudson Street houses over 100 different domestic and international networks. The Meet-Me-Room offers users a carrier-grade colocation facility allowing for immediate interconnection access to these networks.

The 60 Hudson Street Meet-Me-Room operates with multiple levels of security to ensure the safety of your network, including 24 hours, 7 days a week monitoring. You have the option to choose DC or AC power, dependent upon your equipment needs. From one rack to multiple caged layouts, our engineering staff will work with you during the design phase to ensure an efficient and timely turn-up of service.

#### **Product Features:**

- Rack, Private Cage Design or Full-sized Cabinets
- DC or AC Power
- Optical Terminations
- Coaxial and Copper Terminations
- Cross Connect Room Inter-Connections

A dense conduit system has been constructed to allow tenants access to locations within the building as well as networks located within the New York conduit system. Additionally, our power source is backed-up by a FiberNet-owned independent generator to ensure continuous operation of all mission critical equipment, even during power failures.

Please contact your FiberNet sales representative or email [marketing@ftgx.com](mailto:marketing@ftgx.com) to learn more about the features of FiberNet's 60 Hudson Street Meet-Me-Room.
